President's Message

Hello Everyone,

As we venture through the end of summer to the start of fall, I hope that many of you have had the opportunity to get outside and do some metal detecting. I would like to thank all those who attended our NUTS Club picnic. We had a wonderful time with some amazing food, metal detecting rally prizes, along with lots of fun and friends.

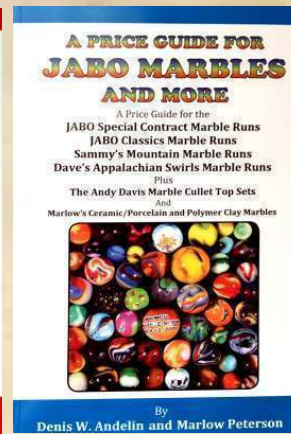

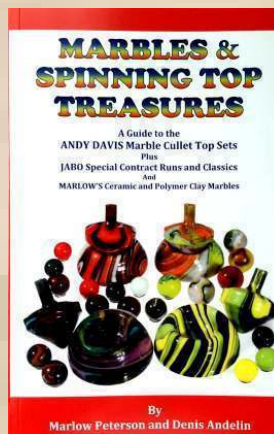

This month's feature item will be presented by Bob Campbell. Our treats will be provided by Bob and Susan Whipple.

This month we have the pleasure of having Marlow Peterson and Denis Andelin. They will be presenting their latest books on marbles and spinning top treasures along with a price guide for JABO marbles. These two gentlemen are the leading authorities on marbles in the United States. This promises to be an amazing evening learning from these two gentlemen. They will have books, posters, marbles, and tops available for purchase.

Please come out and buy some marbles to replace those you have lost.

See you at the meeting,

Todd Monson

The NUTS club membership would like to send our greatest appreciation to George Wilson for his unwavering dedication and support for the NUTS club. Recently George Wilson donated several items to our historical archives. Thank you George from the general membership from the National Utah Token Society.

Book Review

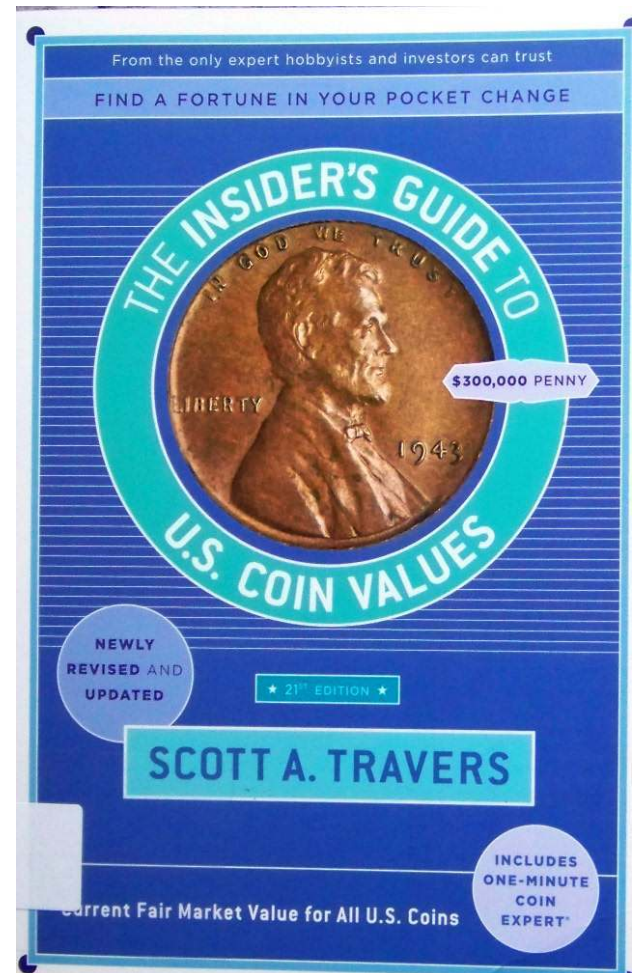

The Insider's Guide to U.S. Coin Values 21st Edition

Author: Scott A. Travers
Copyright 2015
ISBN 978-0-375-72372-8
Pages: 268 with a 137 pages of prices.
Retail \$14.95 softback

Scott takes a novice from knowing nothing to an intermediate collector with plenty to learn. In his acknowledgments, Scott has a list of who's who of coin dealers and writers that helped contribute to the book.

He covers different strategies for accumulators, collectors, investors or the collectors/investors. For example in chapter 2, it covers various modern errors that are possible to find in pocket change. Then it briefly explains the grading scales and standards. Chapter 4 is the price guide, which answers the question "How much is my coin worth?" The author acknowledges that the prices are outdated. The prices are based on \$1400 - \$1650 gold prices, and silver at \$23 - \$28 per ounce.

In the second half of the book, Scott describes how the coin market works. He also covers bullion and sleeper coins that could be very profitable. However some of his suggestions are not for all budgets or beginners.
